Summary

As a first-year BTech student, I am adept at effective communication and possess fluent English language skills. Proficient in fundamental programming languages such as C, Javascript, Java and Data Structures, I also have a strong foundation in fullstack web development with knowledge of MERN stack.

Projects

Shadow Play

June, 2024

- Made a videostreaming webapp using MERN Stack.
- It provides a user friendly interface to share and watch videos while also tweeting your thoughts.
- Ensured responsive design implementation for optimal user experience across various devices.
- Project repository available on GitHub: <https://github.com/AryanBhati7/Shadow-Play>
- Live demo accessible at <https://shadowplay.vercel.app/>

BlogApp

Jan, 2024

- Made a blogging platform for content creators using ReactJS and Appwrite.
- Employed attractive and bold font-styles to enhance visual appeal and user experience.
- Prioritized code conciseness for improved readability and ease of understanding.
- Project repository available on GitHub: <https://github.com/AryanBhati7/BlogApp>
- Live demo accessible at <https://blogapp07.vercel.app/>

Education

Bachelor of Technology in Information Technology

2023-2027

Swarnim Institute of Technology
